

What's been happening...

Lots of cooking and baking:

During weeks 5 & 6 we have been doing lots of cooking and baking, at the children's request; this is outside of our Street Eat Club, which you can read about below. We have also made smoothies, waffles, cheese toasties and pancakes for Breaky Bunch in the mornings. On top of that, the children requested to decorate biscuits! The children are getting very good at reading and understanding recipes.

Group Games:

The children have been playing lots of physical group games such as dodgeball, freeze yoga, colour bump, rock, paper, scissors and fruit salad. We try to encourage kids to be as active as possible and to have a good attitude around winning and losing a game.

Thinking about the future

We had discussions about what children want to be when they're older, what they would like to learn while at oshclub and what they dream about for the future.

Coming Up

NOV
23

Saigon Night Market

A family event to celebrate all that we have learnt in Street Eat Club!!

DEC
20

21-22

Pupil Free Days

We will be open for two days before closing for the holidays.

Breaky Bunch

Every day at Before School Care

Monday: Smoothies

Tuesday: Yogurt & Berries

Wednesday: Waffles

Thursday: Toasties

Friday: Pancakes

Updating our Laburnum OSHClub Service Philosophy

During week 6, our team of Educators has started redesigning our Service Philosophy to better reflect our values, the children and families who use our service, and to reword the language to be more inclusive more accurately. We will be seeking input from the families and children before finalising the new Philosophy statement. Once the new one is complete it will be on display on our service information board, inside our room.

Clubs!

STREET EATZ: (Wednesdays ASC)

During weeks 5 & 6 in Street Eatz we made Pho & Fluffy Green Waffles! The children absolutely loved making the Pho and learning about different foods that are both healthy and delicious! Our Green Waffles didn't turn out quite as we had hoped, however the kids still enjoyed making and eating them.

STEM STATION: (Fridays ASC)

During weeks 5 & 6 we did an egg drop challenge, where the children had to engineer a way to protect the egg from smashing when dropped from a height, they also made floating boats, made from various materials.
